VACANCY

Vehicle Technician

An exciting opportunity has arisen within the operations department. Vehicle Technicians/mechanics are required to work within the production workshop assembling our latest variant of the HMT platform. We are especially interested in time served vehicle technicians from either automotive or commercial background.

Applications are invited for the above post. Key responsibilities are listed below (Not Exhaustive):

- Follow detailed work instructions and technical drawings relating to vehicle, manufacture, assembly and testing.
- Assembly of sub components and finished vehicles.
- Complete all production documentation correctly and in a timely manner.
- Ensure the scope and timing of assigned tasks is understood, completed as per requirements and in accordance with relevant working procedures.
- Work in accordance with current quality procedures and advise any errors or variances to the Senior Technician.
- Maintain all tools and equipment in a clean and usable condition; return tools and equipment to the appropriate storage area(s) when not being used. Report defects or damage to the Senior Technician.
- Assist in the maintenance of clean, tidy and safe work areas.
- Work in other departments and locations as and when required.
- Adhere to the company health & safety and environmental policies and standards at all times.
- Carry out any other duties as are within the scope, spirit and purpose of the job.
- To ensure Personal Data is managed in compliance with company policy.

Person Specification:

- Ability to work with and without supervision.
- Aware of time pressures, while ensuring that the appropriate levels of quality and documentation are delivered.
