

QUALITY MANAGEMENT SYSTEM

POLICY

ENVIRONMENTAL POLICY STATEMENT

Introduction and Aim

Within the UK we operate from sites at Dunkeswell / Devon, Blackhill / Devon and Proteum / Hampshire. Operating within defence, civilian, oil and gas, renewable energy, nuclear power and mineral exploration our commitment to high performance and the environment is paramount. It is therefore the companies aim to comply with legal and other obligations, reduce the environmental impact and ensure the business operates in an environmentally responsible manner.

Objectives

The objectives are set as:

- Ensure that all aspects of the company's activities fulfil its requirements of complying with legal obligations and other requirements.
- Ensure that all items are stored and used on site in such a way as to prevent pollution.
- Commit to continual improvement of the Environmental Management System (EMS) to enhance environmental Performance.
- Ensure that any risk to the environment can be managed in such a way as to minimise impact.
- Make efficient use of natural resources by conserving energy and water, minimising waste and recycling where possible.
- Meet our duty of care requirements in relation to waste by ensuring the safe keeping, transportation and subsequent recovery or disposal of waste.
- Keep transport use to a minimum and regularly service vehicles to maintain their efficiency.
- Work with suppliers to ensure they recognise and reduce the potential of environmental impact of their products and transportation.
- Inform and train all employees in the companies environmental objectives and how they can assist in meeting targets.

Targets

- Recycle to zero landfill as much paper, cardboard, plastic, metal & chemical waste.
- Reduce paper usage by increasing e-mail and electronic documentation storage.
- Reduce energy consumption by fitting of energy efficient appliances within the business.
- Encourage Eco sustainability throughout the business.
