

QUALITY MANAGEMENT SYSTEM

Environmental Policy

Within the UK we operate from sites at Dunkeswell / Devon, Blackhill / Devon and Proteum / Hampshire. Operating within defence, civilian, oil and gas, renewable energy and nuclear power. Our commitment to the environment is paramount. It is therefore the companies aim to comply with legal and other obligations, reduce the environmental impact and ensure the business operates in an environmentally responsible manner.

We are committed to continuous improvement and have established an Environmental Management system in accordance with ISO 14001:2015 which provides the framework for continuously measuring and improving our Environmental performance.

Objectives

Our objectives are as follows:

- Ensure that all significant aspects of the company's activities fulfil its requirements of complying with legal obligations.
- Ensure that all items are stored and used on site in such a way as to prevent pollution.
- Ensure that any risk to the environment can be managed in such a way as to minimise impact.
- Make efficient use of natural resources by conserving energy and water, minimising waste and recycling where possible.
- Meet our duty of care requirements in relation to waste by ensuring the safe keeping, transportation and subsequent recovery or disposal of waste.
- Keep transport use to a minimum and regularly service vehicles to maintain their efficiency.
- Work with suppliers to help reduce their environmental impact.
- Inform all employees in the companies environmental objectives and how they can assist in meeting targets.

Targets

- Zero to landfill paper, cardboard, plastic, metal.
- Promote reduction in paper usage by increasing e-mail and electronic documentation storage.
- Encourage Eco sustainability throughout the business.
